

DENMARK.

LIST OF ARTICLES THE EXPORTATION OF WHICH IS PROHIBITED.

April 9, 1915.

NOTES.

As regards goods in transit and transshipment goods (in the Copenhagen free port and all other Danish harbours), all such goods, if of a kind prohibited to be exported from Denmark, are covered by the prohibition unless they are on a thorough bill of lading to a port in a foreign (non-Danish) country.

The prohibition is therefore applicable in cases where the goods are either shipped to a Danish port "to order," or where the goods are redestined to another port than the one originally mentioned in the bill of lading (unless it is only a question of redestination to another port in the same country).
